

---

A community where all people reach their fullest potential for health and wellness in and outside the classroom.

---

To advance the well-being of the SNC community through integrated medical, mental health, and wellness services and programs. Health & Wellness offers culturally-informed primary care, health promotion, and student-centered counseling for the SNC community. We value a collaborative, holistic approach to caring for the mind and body through accessible, high-quality services, programs, policies, and environments.
